

Services Provided We at TBC Gulf delivered UI/UX design,

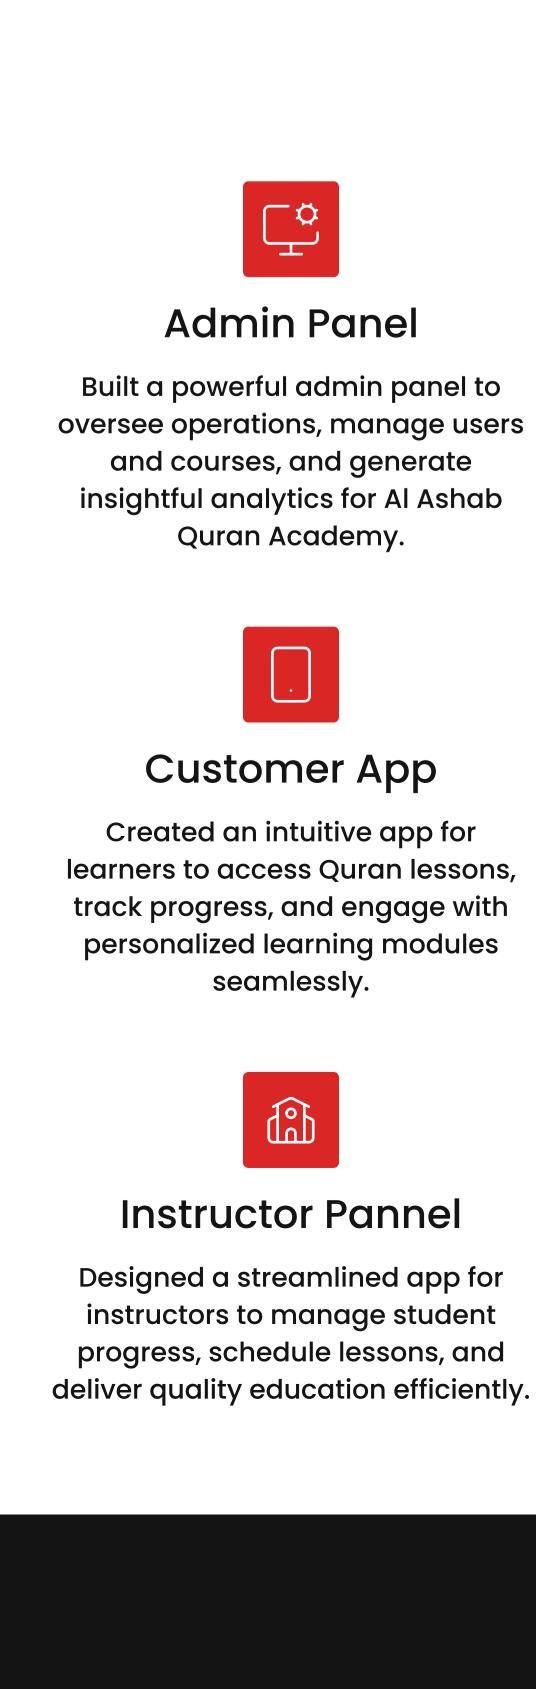

wireframing, prototyping, and app development to create a seamless Islamic learning experience for Al Ashab Quran Academy. Starting with wireframes, we mapped user flows and ensured intuitive navigation. Prototypes refined the design, while our robust backend development and customized software solutions brought the app to life. These efforts aligned perfectly with Al Ashab Quran Academy's vision, ensuring a user-centric and efficient platform for learning Quran reading, Arabic calligraphy, and more.

Solutions for Al Ashab Quran Academy We developed a fully tailored, three-facing system for Al Ashab Quran Academy, including a customer app, instructor app, and admin panel. Each solution

End-to-End Custom

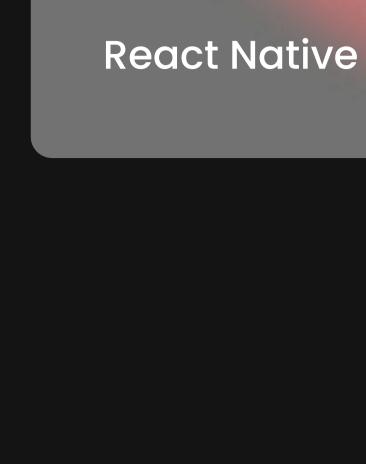

was meticulously designed to seamlessly integrate and elevate their educational platform, providing users with a modern and efficient learning experience.

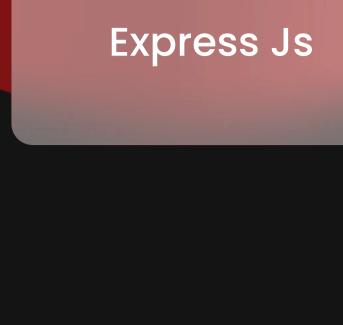

Leveraging cutting-edge technologies to build scalable, efficient, and high-performance solutions. Our stack ensures reliability, seamless integration, and future-ready capabilities for every project.
